Dear Sir:

Enclosed herewith are the formal drawings (Figures 1, 2, 3, 4, 5, 6, 7, 8, 9 and 10), for the above-referenced case.

In FIG. 9, the text in box 214 has been amended so that the second line reads:  
"memoryReplicatedStateServer"

This amended text conforms to the specification at page 15, lines 16-18, which reads:

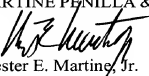

"To support state recovery during an application restart and migration, the RSM actively replicates the in-memory state to disk replicated state servers 212 and/or memory replicated state servers 214."

In view of this text in the cited page 15, it is seen that the text in original line two of box 214 of FIG. 9 ("mory") was a typographical error abbreviating the word "memory" that appears in the above quoted text of lines 16-18.

Entry of the formal drawings, including amended FIG. 9, is respectfully requested.

If the draftsperson has any questions concerning these drawings, please contact the undersigned at the number set forth below. If any fees are due in connection with the filing of these drawings, please charge such fees to deposit account 50-0805 (Order No. SUNMP006).

Respectfully submitted,  
MARTINE PENILLA & GENCARELLA, LLP
